Transfer of copyright agreement

Scientific publishers and authors share a common interest in the protection of copyright: authors principally because they want their creative works to be protected from plagiarism and other unlawful uses, publishers because they need to protect their work and investment in the production, marketing and distribution of the article written by the author. In order to do so effectively, publishers need a formal written transfer of copyright from the author(s) for each article published. Publishers and authors are also concerned that the integrity of an article (once refereed and accepted for publication) be maintained, and in order to protect that reference value and validation process, we ask that authors recognize that distribution (including through the Internet/WWW or other on-line means) of the version of the article as accepted for publication is best administered by the publisher. Please complete and return this form promptly.
